TDL | Trust in
Digital
Life

New Members

TDL is welcoming new member [Web of Trust](#) (WOT). WOT brings on board unique capabilities in the area of crowd-sourced trust and reputation. Their already 30-million user community is growing fast and WOT is happy to contribute to the goals of TDL all together.

TDL is establishing partnerships with related associations to join forces. The objective is to create awareness, organize joint events and stay at the forefront of technology through active knowledge exchange and collaboration.

[EEMA](#) and [Identity.Next](#) already signed the consortium agreement to join TDL as associate members, and in the next meeting in January 2012 the Executive Board will make a decision of the acceptance and rules regarding the associates.

TDL Strategic Research and Innovation Agenda

The short compact version of the SRA will be finalized by end of December 2011. This will be offered to the EC as input for horizon 2020. The decision to produce a compact version is based on the advice from the TDL Advisory and Executive Boards, in the meeting held in Brussels, 18 October 2011.

More detailed information (appendices of the SRA) will be published separately which is to be finalized in Q1 2012.

The SRA addresses central challenges for enabling trust in digital life towards a vibrant future economy that protects privacy and other basic related human rights of citizens in society.

Planning:

- End December Compact version SRA to EC
- Working the SRA appendixes in 23 January WG Meeting
- External presentation SRA 27 and 28 March in TDL Event in cooperation with EEMA
- Presenting SRA in several events in 2012, e.g. CSP Forum 2012

TDL Projects

ATTPS

The EC FP7 support action ACTOR (Accelerating Trust in Digital Life Organisation and Relations) is coming to an end in June 2012.

A new coordination action proposal will be submitted before 17 January 2012 for FP7 call 8, for the period 2012-2015, with a new name ATTPS (Achieving The Trust Paradigm Shift)

The proposal has a strong link to the TDL SRA.

TDL Office wishes you Merry Christmas and prosperous New Year 2012!

Architecture Whitepaper and Pilot

The first pilot project Large Scale Authentication architecture lead by Ronny Bjones has received a lot of interest by the members. The pilot is based on the Authentication Architecture paper. Ronny presented the paper and pilot in November at ISSE 2011 and received lot of interest for both. The slides and more information are available at the TDL website under the link: [News, Architecture](#).

The Architecture paper is going through final review and will be published by the end of December 2011.

TDL members are invited to join the pilot project. Contact: Ronny Bjones, e-mail: Ronny.Bjones@microsoft.com

Upcoming TDL Events

Working Group Meeting

Next Working Group Meeting will be held in Eindhoven, the Netherlands, **23 January 2012**, hosted by Philips. This meeting will concentrate in finalizing several papers which will be added to the compact version of SRA. Invitation and preliminary agenda can be found on the [TDL Website](#). We kindly ask you to [register](#) for the meeting before 10 January 2012.

TDL Annual Event, SRA release and European eID interoperability conference

The annual TDL Event **27 and 28 March 2012** will be co-located with the [EEMA](#) European eID interoperability conference in Biel/Bienne, Switzerland, hosted by [Berner Fachhochschule \(BFH\)](#).

Organised by EEMA, the European eID interoperability conference acts as a neutral forum where industry, business and administrations can address specific areas of importance in the digital identity arena. It also facilitates the exchange of ideas amongst delegates who want to learn and build upon their knowledge in a relaxed, constructive environment.

At the conference Trust in Digital Life Consortium introduces the full version of Strategic Research and Innovation Agenda (SRA) including the finalized papers. The papers will be added to the first compact version as a separate appendix document. The SRA document will be handed over to the European Commission as a token of the commitment to the goals of Digital Agenda from TDL Consortium.

In addition to the SRA release, the high level executives of TDL will give challenging speeches related to the Trustworthy ICT. TDL members have an opportunity to demonstrate their Trustworthy ICT security solutions at the event, if you are interested in demonstrating, please contact TDLoffice@bicore.nl for submitting your proposal.

A detailed programme of the conference will be published in January 2012.

SRA and Demonstrations @ CSP Forum 2012, Berlin

TDL proposal for demonstrations at [Cyber Security and Privacy Forum 2012](#), has been accepted. This conference is organized by [Effectsplus](#), in coordination with the Trust and Security Unit of DG INFSO, in Berlin **24 and 25 April 2012**. In addition to the SRA Introduction and Project portfolio overview demonstration, proposal includes three demonstrations of Trustworthy ICT solutions from the member organizations. NEC, Thales and Irdeto are representing TDL by presenting the demos.
